

Buckley Town Council at its meeting held on 29th June 2021 confirmed that it will fund a snack meal for every child attending the four Summer Playschemes in the town. The snack meal will be available to each child at each Playscheme site on each day for four weeks. The Town Council is funding the food for the Playschemes as the Welsh Government have decided to continue to provide free school meals funding for eligible children throughout the holidays. The Town Council originally started providing food for the children attending Playschemes following the initiative by the then Mayor, Councillor A G Williams, in 2016. It is believed that the Town Council was the first to provide food to children during Playschemes.
